Product information

A separate metal detection feature protects the cutting unit and stops the device if metal parts, such as staples, are inserted. These can be removed and the shredding process can continue.

The innovative IntelligentDrive motor and operating technology offers three operating modes. Either for a particularly quiet, normal or a up to 40 % higher performance data destruction

This maintenance friendly document shredder has an integrated automatic oiler which ensures that you have a consistently high cutting capacity.

For continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Energy-saving

In stand-by mode, intelligent control programme EcoSmart ensures there is an exceptionally low power consumption of 0.1 watts.

Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

Anti-paper jam function

Intelligent paper jam prevention. The machine recognises very quickly if too much paper has been fed in and reacts autonomously.

High level of user safety

User safety is paramount. A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

Convenient emptying

Robust wooden cabinet with castors. After opening the door, the reusable collecting bag can be easily removed and emptied.

5 year warranty on the HSM SECURIO P-series document shredders in security levels P-2 to P-5 according to ISO/IEC 21964 (DIN 66399). 3 year warranty on all other HSM SECURIO document shredders. Lifetime warranty on solid steel cutting rollers at security levels P-2 to P-5 (according to ISO/IEC 21964).
