HSM HL 7009

This very compact, horizontal working counter plate press is suitable for large disposal tasks in retail and in small to medium central storages. The bales from a HL 7009 have a cross-section of 1100 x 1100 mm and a bale length of 1200 mm up to 600 kg in weight and therefore achieve an optimum HGV capacity. With the large bales from the HL 7009, you also save on handling expenses. The integrated hydraulic lifting/tilting device significantly reduces the number of people required to compact the recycling material.

Technical data

Order number:	6336137	Pressing power:	71 t
Maximum bale weight:	1323 lb	Bale size (WxHxL):	43.31 x 43.31 x var. 47.24 "
Loading aperture (WxH):	35.04 x 40.16 "	Number of strappings:	4
Type of consumables:	strapping wire	Motor:	14.08 HP
Voltage / Frequency:	208 V / 60 Hz	Cycle time:	47 s
Dimensions of machine (WxDxH):	211.26 x 99.41 x 100.71 "	Machine weight:	15425.73 lb

Product Information:

Convenient filling via hydraulic lifting/tilting device

Very low space requirement thanks to compact and sturdy design

Also available as a variant with automatic start

Intuitive, multilingual operational guidance via graphic description

Convenient and particulary fast loading via hydraulic lifting/tilting device

Hydraulic sliding door for bale removal ensures optimum operating convenience and safety

High specific pressing power provides a high compaction of the material and consequently an optimum HGV load

Pallet locking mechanism for safe bale removal
