

HSM V-Press 860 eco

The HSM V-Press 860 combines high compaction force, a large loading aperture, and a high level of operating convenience. Rapid stroke technology, retaining claws, and the HSM TCS (TorsionControlSystem) enable particularly economical baling operation. The wide-opening double door with self-locking closure technology and automatic start function allows convenient loading. The door lock with handwheel ensures secure locking.

Technical data

Order number:	6148113	Pressing power:	60 t
Maximum bale weight:	1058 lb	Bale size (WxHxL):	47.24 x 30.71 x 47.24 "
Loading aperture (WxH):	47.05 x 25.59 "	Number of strappings:	4
Type of consumables:	strapping wire	Motor:	6.44 HP
Voltage / Frequency:	480 V / 60 Hz	Cycle time:	25 s
Dimensions of machine (WxDxH):	70.75 x 53.66 x 117.52 "	Machine weight:	4188.78 lb

Product Information:

To fill the press, the upper half of the doors is swung to the right

Automatic start of the pressing process after closing the door

Convenient membrane keypad with text display, which shows the current status of the machine

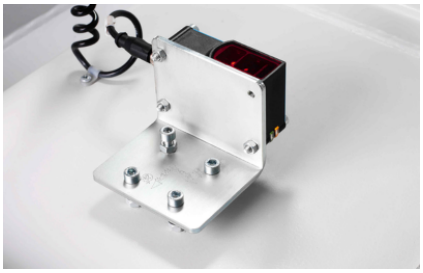

With rapid traverse technology, the balers achieve short cycle times and support demand-oriented energy use in daily operation

Hand wheel door lock - Easy to handle thanks to counter-rotating thread for quick opening and closing

Optimised bale dimensions and bale weights for efficient storage, transport and direct commercialisation

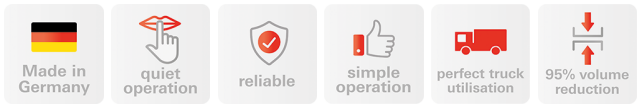

HSM TCS (Torsion Control System) for monitoring press ram movement

Strapping with wire - optional tape station available for strapping with polyester tape or wire according to requirements

Suitable for cardboard as well as film
