### Product Information:

The packaging material can be used wherever required and provides an optimum protection for objects.

The intuitive operator control panel with LED indicators on a robust keypad signals the operating status of the device.

The efficient drive concept ensures a powerful operation at constant load.

The high efficiency of the drive enables a particularly sustainable operation of the device.

The device can be used on a mobile basis and has smooth-running, stable castors with a parking brake.

When the emergency stop switch is actuated, the device stops immediately.

The infinitely variable adjustment of the working width with a scale allows the production of cushioning material exactly as required.

Depending on the application, the cushioning volume of the packaging material can be adjusted as required.

The induction-hardened solid steel cutting rollers are wear-resistant against cardboard staples and guarantee durability.
