HSM StoreEx HDS 150 (30 Amp) - 53 mm

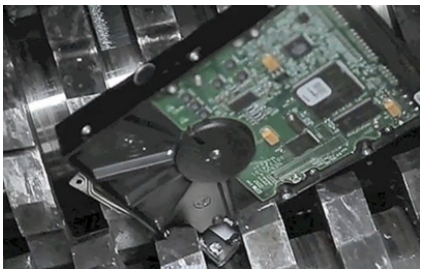
The compact HSM StoreEx HDS 150 digital data media shredder destroys digitial data carriers and mobile devices (without battery/rechargeable battery) in a safe and economical way – and is data protection compliant as well. Product version with 30-amp power connection

Technical data

Order number:	1772123	EAN:	4026631086615
Cutting type:	strip cut	Cutting size:	19/16"
Security level (DIN 66399 / ISO/IEC 21964):	H-3|T-1|E-2	Cutting capacity HDD up to 3,5" (items/h):	210
Cutting capacity HDD up to 2,5" (items/h):	1200	Cutting capacity CD/DVD (items/h):	4200
Cutting capacity magnetic tapes (items/h):	280	Loading aperture (LxWxH):	11.42 x 6.5 x 2.36 "
Noise level (idle operation):	ca. 61 dB(A)	Voltage / Frequency:	120 V / 50 Hz/60 Hz
Container volume / collecting:	10.6 gal	Loading aperture (WxH):	6.5 x 2.36 "
Width x Depth x Height:	47.24 x 32.09 x 52.17 "	Machine weight:	1177.27 lb
Driving power:	1.5 hp		

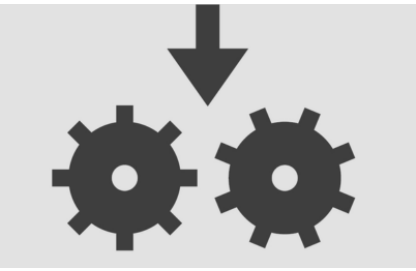
Product Information:

Destroys electronic data carriers and mobile devices (without battery/rechargeable battery)



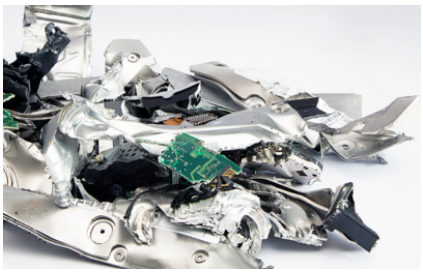
The automatic reverse function in the shredder eliminates material jams and ensures your shredding operations run smoothly.

Data media can be shredded easily in decentralised locations with this machine.



This powerful machine provides an excellent cutting performance combined with reliable continuous operation and a low noise level

The selection of the correct functional mode will always ensure the maximum throughput for the respective material type.

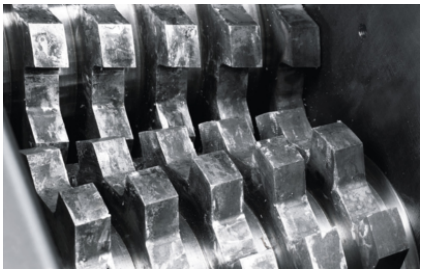


A conventional 3.5 inch hard disk is cut into at least two parts ("H-3 security cut"). The security level is thus many times higher than with conventional methods.

The waste container can be easily removed and emptied.

The large LED display enables the continuous input of media at a comfortable working height.

Our multifunction control panel means that anyone and everyone can use the device intuitively without having to undergo extensive training.



The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability!

The digital data media shredder is operated with single-phase power connection.

Made in Germany | reliable | simple operation | continuous operation | quiet operation
