HSM Powerline FA 500.3 - 10.5 x 40-76 mm

The top model of the HSM Powerline heavy duty document shredder range. This powerhouse is perfect for the shredding of large quantities in archives or central document shredding stations.

Technical data

Order number:	1992117	EAN:	4026631037174
Cutting type:	particle cut	Security level (DIN 66399 / ISO/IEC 21964):	E-2|O-2|P-2|T-2
Cutting capacity in sheets 80g/m²:	510 - 550	Noise level (idle operation):	ca. 65 dB(A)
Intake width:	19.69 "	Driving power:	10.06 hp
Voltage / Frequency:	208 V / 60 Hz	Width x Depth x Height:	45.98 x 70.71 x 70.55 "
Machine weight:	1946.68 lb		

Product Information:

We have integrated an automatic oiler into the device which will ensure it runs smoothly, giving you a consistently high cutting capacity and quality.

To enable you to shred documents in a continuous operation mode, the shredder has a powerful motor. This gives not only reliable continuous operation, but also a high level of shredding capacity.

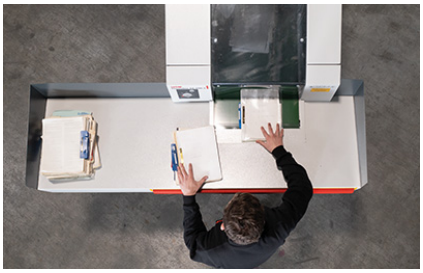
The height at which the data media is inserted into the shredder means working with it is easy and convenient

The waste container can be easily removed and emptied.

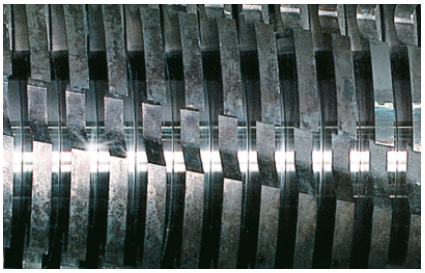
The device can be used on a mobile basis and has smooth-running, stable castors with a parking brake.

Our multifunction control panel means that anyone and everyone can use the device intuitively without having to undergo extensive training.

Safety is a high priority for HSM and so we have incorporated an emergency off safety bar on the loading table, which stops the device when pressure is applied.



For more space to store materials, there is an extension to the loading table (600 mm). The extension is on the left hand side.



The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.
